Overview

Highly motivated Computer Science student at Nitte University with a keen interest in software development. Seeking a summer internship to gain practical experience in building solutions and exploring cutting-edge technologies. Strong foundation in programming languages like C and C++, with excellent analytical and problem-solving skills. Passionate about continuous learning.

Education

Bachelor of Science in Computer Science

NMAM Institute of Technology, Nitte, Karkala
GPA: 9.19 / 10.0

Anticipated Graduation: May 2026

Pre-University Course (Science Stream)

Rotary Pre-University College, Moodbidri
Percentage: 91.5%

Graduated: 2022

SSLC (10th Grade)

Rotary High School, Moodbidri
Percentage: 92.32%

Graduated: 2020

Academic Projects

Diabetes Prediction System

Built a machine learning model using Python and scikit-learn to predict diabetes risk based on 8 health-related parameters. Trained and evaluated on a dataset of over 750 records, achieving an accuracy of 85% using logistic regression and decision tree classifiers.

Movie Recommendation System

Developed a personalized movie recommendation engine using collaborative filtering techniques. Trained on over 1000 user ratings to recommend top 10 movies per user with over 78% precision. Implemented using Python, Pandas, and Surprise library.

Certifications

- Java Data Structures and Algorithms by Scott Barrett — Udemy
- Web Development Course — Udemy

Technical Skills

- Programming Languages: C, C++, Python, Java
- Web Development: HTML5, CSS
- Tools: Git, VS Code, Jupyter Notebook

Soft Skills

- Leadership
- Teamwork
- Communication
- Time Management
- Adaptability

Hobbies

- Playing Games
- Video Games
- Cooking
